J.B. Rainsberger / Sprettur ehf	
Agile Design, Course	2012 - 2012
J.B. Rainsberger / Sprettur ehf	
Engineering Entrance, Course	2006 - 2007
Aalborg University	

ABOUT

I come from Reykjavík, Iceland and am the oldest of 5 brothers. In 2006 I moved to Denmark to study. I now live near Aalborg, Denmark with my wife and son. In my off-time I like to bake pizza, play computer-games, take photos and go for walks.

I've been fascinated by computers since age 8 and spend much of my free time, learning more about them.

SKILLS

Ordered by experience. Underline for preference.

Software Development

HTML/CSS, PHP, React, JavaScript, React Native, TypeScript, jQuery, Go, C#, Java, C, C++, TCL, Lua, Vue.js

MySQL, GraphQL, Postgres, Event Sourcing, MongoDB, Firestore, Memcache, Redis, SQLite, OpenAPI

Processes and methodologies

Agile, Kanban, Scrum, Lean, Test Driven Development

LANGUAGES

Icelandic (native)
English (fluent)
Danish (fluent)

EXPERIENCE

Lead Frontend Developer 2022 - Present
[Apacta A/S](#)

Building and improving frontend for a SaaS business, focused on craftsmen.

AWS GraphQL Kubernetes React TypeScript

Software Pilot 2021 - 2022
[Trifork A/S](#)

Consulted for Trifork customers on software solutions. Learned new things.

GraphQL React TypeScript

Lead Software Developer 2020 - 2021
[Venue POS A/S](#)

Assembled a small team and delivered a resilient, offline capable point-of-sale system. Set up our cloud infrastructure and automated building, monitoring and deployment.

Docker Event Sourcing GraphQL Kubernetes Postgres React React Native
TypeScript

Senior Software Developer 2019 - 2019
[Redia A/S](#)

Worked on a web-based teaching platform and a mobile app to help librarians work more effectively. Pitched and developed an image (and video) scaling micro service.

Docker Firebase Go Postgres React React Native TypeScript

Tech Lead 2017 - 2019
[PARKPARK A/S](#)

Pitched, developed and delivered a new user-focused app. Moved our infrastructure from a single server to full redundancy in Google Cloud. Ran in-house development, trained new employees, managed our infrastructure, coordinated with freelancers and did full-stack software development.

Docker Go GraphQL HTML/CSS JavaScript Kubernetes Linux MySQL PHP
React React Native

Senior Developer 2015 - 2017
[UVData A/S \(now KMD\)](#)

I managed releases, did frontend development and was a Scrum-Master on "Min Uddannelse", a large learning platform. I helped introduce React to the organisation, did internal training and helped with recruiting.

DevOps HTML/CSS JavaScript jQuery React

System Developer 2012 - 2015
M1 A/S (now TDC)

Software Developer 2013 - 2013
Lyngsø Systems A/S

Software Developer / Intern 2011 - 2011
Sprettur ehf

NETWORKING

Speaker & Co-Organizer [Aalborg React Meetup](#)

PROFILES

 Twitter android
twitter.com/android

 GitHub android
github.com/android

 LinkedIn andriosc
